ACI Global Training

ACI Fund for Developing Nations' Airports

- Designs, develops and conducts professional training seminars for deserving candidates from airports in developing countries.
- Offers partial scholarships on other ACI training courses.
- ACI Fund opens the door to career development and helps to bridge the gap in national wealth.
- Applies to countries on the UNCTAD list of least developed countries.

ACI Certificate in Airport Environmental Management

The certificate level program provides airport staff with an understanding of the basic principles of sustainable development and environmental management.

The program covers:

- the key environmental impacts associated with airport operations and growth
- the benefits gained from effective environmental management and
- the essential elements of implementing an Environmental Management System at an airport.
